

**Dr. Abdel-Rahman Mohamed, Ph.D., M.Sc.**

Dr. Mohamed has specialized in Interdisciplinary Cognitive & Development Communication, the science mediating human knowledge. As an accomplished scholar, communication, business and development practitioner, Dr. Mohamed has dedicated the application of his knowledge to the improvement of human quality of life for individuals and communities in developing countries.

Dr. Mohamed is CEO of **AIM International, Inc.** a Boston-based international strategic cooperative alliance group specializing in the transfer of innovative technology to developing countries for **"Solving Chronic Problems Naturally"**. Dr. Mohamed has consulted for many leading international corporations and institution. His technical presentations to international bodies included regional Summits, the UN and World Bank. Amongst the many technologies he promoted, Dr. Mohamed is credited with introducing Voice Recognition Technology to Africa and the Middle East as well as popularizing Satellite telecommunication and broadcast.

A leading African and Middle Eastern Intellectual, Dr. Mohamed played important political roles. His contributions, interviews and articles by and about him appeared in newspapers and magazines and on radio and television worldwide. He has had extensive experience with non-government and voluntary *"Third World"* and international development organizations, including a specialist status in the United Nations' Social Development Division. Dr. Mohamed chaired the Cultural Exchange Committee of Sudan's National Council for Literature and the Arts. A founding developer of Khartoum University Press and People's Knowledge Project, Dr. Mohamed is a much sought after motivational speaker.

As the first Third World Professor of Mass Communication in the Boston University's College of Communication 1987-1995, Dr. Mohamed simultaneously held Associate Faculty positions in the Center for International Relations, African Studies Center, as well as the African-American Studies Center. A founding pioneer of the International Environmentalist Movement and Health Communication Programs, Dr. Mohamed also served as an academic advisor in BU's Hubert Humphrey Fellowship Program of IIE (the Institute of International Education), and lectured in the USIA-sponsored training programs for journalists, newsmen, businessmen and senior executives from Asia, Africa, the Middle East, Europe and Latin America. In Sudan, he taught history and politics of Africa and the Middle East.

Dr. Mohamed earned his Interdisciplinary Development Doctoral degree from the BU's University Professors Program. He earned a Master of Science at Boston University's School of Public Communication in Publishing, Advertising and Marketing Management. At the University of Khartoum, he studied history, philosophy, political science, languages, and law.

A naturalized US citizen on the basis of permanent residency in the Immigration category of "Outstanding Professor," Dr. Mohamed is the recipient of many honors including: A 1993 Boston University Recognition, A 1992 and a 1994 nomination for Excellence in Teaching, Graduate Students' special award for "Excellence in and Devotion to Teaching," a University of Khartoum citation, Historical Society's First-Prize Award for "Best Research of the Year," and World University Service's BMA "Best Member Award."
